

GENESIS 26 - The LIFE SCIENCE TECH DAY

📍 **FRAUENBAD Heidelberg**

📅 **March 12, 2026**

Secure your ticket now!

Available until February 28, 2026

PARTICIPATE AND SHAPE THE FUTURE!

Take part in the leading regional networking event for **Engineering Next-Generation Platforms for Disease Modeling and Drug Screening**.

How can disease processes be simulated more realistically and active ingredients tested more quickly, safely, and reproducibly? This question will be the focus of the next **Genesis 26 - the LIFE SCIENCE TECH DAY 2026** hosted by InnovationLab. The forum offers Life Science creators, scientists, and entrepreneurs the unprecedented opportunity to accelerate their work.

Join us for inspiring sessions on the following topics:

- Biofabrication & Integrated Microphysiological Systems
- Bioelectronics & Sensing for Live Tissues
- Imaging, Automation & AI

We bring people together to spark collaborations that become funded projects. Leave with at least three concrete partner leads. Join us and bring a question — we'll match you with the relevant partners.
